

## SiO<sub>2</sub> Ring

### 1. Application:

Widely used in the field of semiconductor, metallurgy, chemical industry, electric light source, photo-communication, medical equipment, scientific instruments and so on. we really appreciate your visiting and assisting.

### 2. Chemical Composition (PPM):

Al	Fe	Ca	Mg	Ti	Ni	Mn	Cu	Li	Na	K	Co	B	OH
22.36	0.46	0.65	0.01	1.26	0.02	0.27	0.03	1.04	2.27	0.93	0.02	0.05	120-260

### 3. Product Detail:

Product	Silicon Dioxide (Quartz Ring)
Formula	SiO <sub>2</sub>
Purity	99.999% pure
Type	Ring
Color	White
Size	requested by customers
Density	2.21×10 <sup>3</sup> kg/m <sup>3</sup>
Melting point	1700°C
Index of Refractive	1.46 (0.55μm)
Pervious range	0.2-9μm
Package	1pc / Vacuum Packing Paper Carton, Styrofoam Box or Clients-Tailor Packing
Period of validity	3 years
Storage	Constant temperature and humidity Storage
