## Ag/Al paste

Type	Characteristic	Part No.
Aluminum paste for solar cell	1. High efficiency	108, 109
	2. Low bowing	122, 132
	3. Pb-free	136, 138
	4. Hot water test	
	5. High peak temperature	
Ag/Al paste for solar cell	1. High adhesion capability (>3 N/mm)	331_C
	2. High soldering capability	331_D
	3. High compatibility with Si Wafer	331_K
	4. High quality printing capability	
	5. High compatibility with Al paste	
	6. Lead free	
Silver paste for Solar cell	1. 60 $\mu$ m narrow grid	570
	2. 80~100 $\Omega$ /sq surface resistance	572
	3. Suitable for SiNx ARCs	
	4. Low contact resistance
