

Electronic Insulation	Heat Dissipation	Foldable	Product Type	Product Delivery
Electronic Insulation by PET Film	Heat Radiation	Foldable	Film	Coil

WT - 5962 CXX

WaermTimo Nano-Sphere Graphite & Copper Foil Heat Spread Film						
Specification Sheet						
Product Model	Total Thickness	Electronic Insulation	Working Temperature	Thermal Conductivity	Specific Heat Capacity	Product Layer
WT-5962C45	45um±10um	Yes	100~110°C	350-400 W/m-K	0.58 J/g-°C	Design by Customer

NOTE:

1. The thickness of Nano-Sphere Graphite can be customization Max.= 65 um.
2. The thickness of copper can be customization (Depend on Design)
3. The thickness of WT-5962C45 is standard product of Waermtimo.
